

Novità di Moodle 3.9 e 3.10

Andrea Biccio - AIUM

3.9: H5P

- Integrato nativamente
- Deposito dei contenuti

The screenshot displays the Continuum 3.9 interface. At the top, there is a blue header with the Continuum logo and version number, and language options (English, Italiano, Русский, العربية). Below the header, a navigation bar contains links for HOME, PAGINE DEL SITO, and DEPOSITO DEI CONTENUTI. The main content area features a search bar labeled 'Cerca', an 'Aggiungi' button, and a 'Carica' button. A dropdown menu is open under 'Aggiungi', listing content types: Image Sequencing, Image Slider, Interactive Book, Interactive Video, KewAr Code, and Mark the Words. To the left of this menu is a card titled 'Hello H5P' with a colorful chart icon. On the right side, a vertical sidebar menu is visible, containing options: Home, Dashboard, Calendario, File personali, and Deposito dei contenuti. A blue arrow points to the 'Deposito dei contenuti' option in this sidebar.

Safe Exam Browser settings

Require the use of Safe Exam Browser - Set whether students can only attempt the quiz using the Safe Exam Browser. The available options are:

- No - Safe Exam Browser is not required to attempt the quiz.
- Yes - Configure manually: No template for the configuration of Safe Exam Browser will be used. You can configure Safe Exam Browser manually.
- Yes - Use an existing template: A template for the configuration of Safe Exam Browser can be used. Templates are managed by the Moodle Administrator. Your manual settings overwrite the settings in the template.
- Yes - Upload my own config: You can upload your own Safe Exam Browser configuration file. All manual settings and the use of templates will be disabled.
- Yes - Use SEB client config: No configurations of Safe Exam Browser are on Moodle side. The quiz can be attempted with any configuration of Safe Exam Browser. You hand the Safe Exam Browser config file over to students by other means, like you did with Moodle 3.8.

Yes - Use an existing template is only shown when there really are templates to choose from. If no administrator or manager has uploaded any template and set at least one to Enabled, the option is not shown.

Safe Exam Browser config template - Choose a template for the configuration of Safe Exam Browser to apply. This setting is only shown if Require the use of Safe Exam Browser is set to Yes - Use an existing template and when there really are templates to choose from. If no administrator or manager has uploaded any template and set at least one to Enabled, the option is not shown.

Show Safe Exam Browser download button - Set whether a button for Safe Exam Browser download will be shown on the quiz start page. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually. Yes - Use an existing template. Yes - Upload my own config. Yes - Use SEB client config.

Show Exit Safe Exam browser button, configured with this quit link - In the according field you can enter a link to quit Safe Exam Browser. It will be used on an "Exit Safe Exam Browser" button on the page that appears after the exam is submitted. Clicking the button or a link to the same URL placed wherever you want to put it, it is possible to quit Safe Exam Browser without having to enter a quit password. If the field is left empty, then the "Exit Safe Exam Browser" button does not appear and there is no link set to quit Safe Exam Browser. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Ask user to confirm quitting - If enabled, users have to confirm quitting of Safe Exam Browser when a quit link is detected. Note this setting does just affect quitting with the quit link and doesn't affect quitting with the "Quit" button, Ctrl Q or the close button in the main browser window. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Enable quitting of SEB - Set whether users can quit Safe Exam Browser with the "Quit" button in the Safe Exam Browser task bar or by pressing the keys Ctrl-Q or by clicking the main browser window close button. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually or Yes - Use an existing template.

Quit password - Here, it is possible to provide a password which is prompted when users try to quit Safe Exam Browser with the "Quit" button, Ctrl-Q or the close button in the main browser window. If no quit password is set, then Safe Exam Browser just prompts "Are you sure you want to quit Safe Exam Browser?". Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually or Yes - Use an existing template.

Enable reload in exam - Used to allow page reload during a quiz (reload button in Safe Exam Browser task bar, browser tool bar, iOS side slider menu, keyboard shortcut F5/cmd+R). Offline caching might break when the user tries to reload a page without internet connection. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Show SEB task bar - Set whether users are shown the Safe Exam Browser task bar. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Show reload button - Set whether users are shown the reload user interface element in the task bar bottom right corner. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Show SEB task bar is set to Yes.

Show time - Set whether users are shown an element in the task bar with the current time. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Show SEB task bar is set to Yes.

Show keyboard layout - Set whether users are shown an element in the task bar to choose the keyboard layout. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Show SEB task bar is set to Yes.

Show Wi-Fi control - Set whether users are shown an element in the task bar to choose the Wi-Fi. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Show SEB task bar is set to Yes.

Enable audio controls - Set whether users are shown an element in the task bar to change the audio volume. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Show SEB task bar is set to Yes.

Mute on startup - Set whether the audio volume is initially mute when Safe Exam Browser launches. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Enable URL filtering - Set whether URL filtering is enabled in Safe Exam Browser. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually.

Filter also embedded content - Set whether URL filtering applies to embedded content, too, in Safe Exam Browser. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Enable URL filtering is set to Yes.

Expressions allowed - Insert a set of simple expressions URL, are tested against and allowed for accessing during an exam. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Enable URL filtering is set to Yes.

Regex allowed - Insert a set of regular expressions URL, are tested against and allowed for accessing during an exam. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Enable URL filtering is set to Yes.

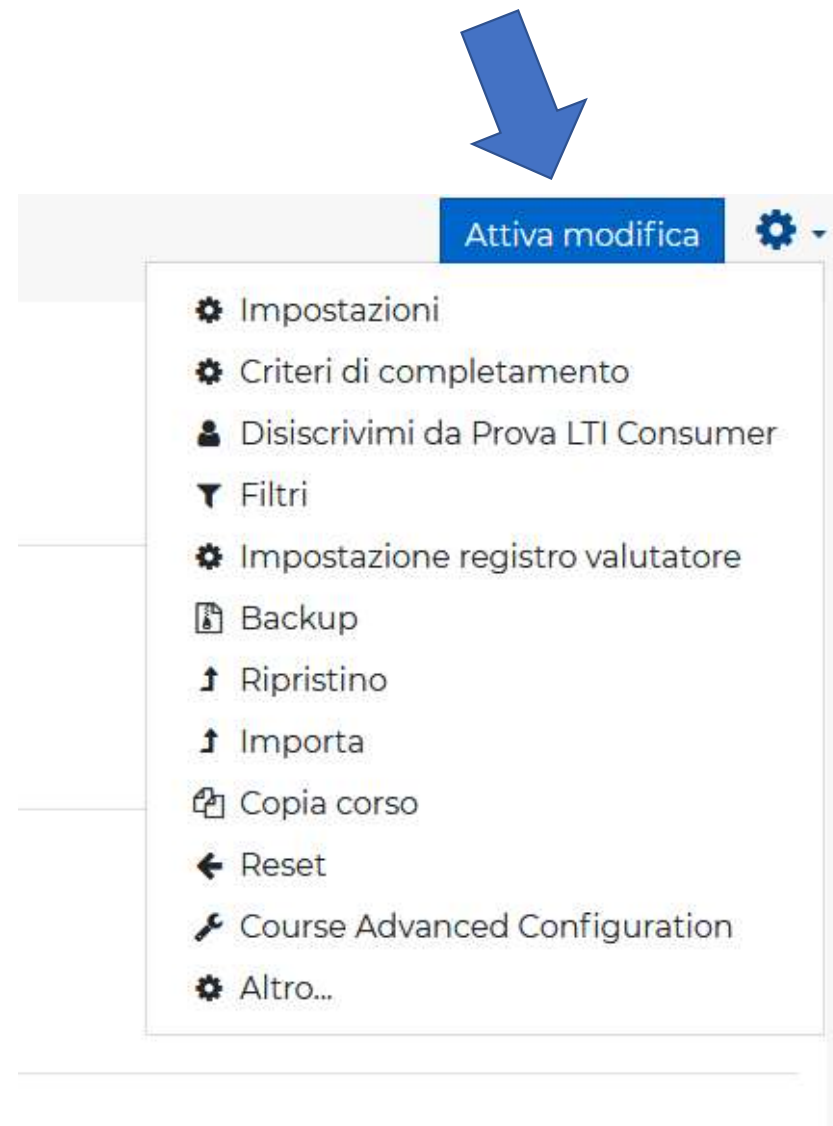

Expressions blocked - Insert a set of simple expressions URL, are tested against and blocked for accessing during an exam. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Enable URL filtering is set to Yes.

Regex blocked - Insert a set of regular expressions URL, are tested against and blocked for accessing during an exam. Can only be set if Require the use of Safe Exam Browser is set to Yes - Configure manually and Enable URL filtering is set to Yes.

Allowed browser exam keys - Insert allowed Browser Exam Keys for versions of Safe Exam Browser that are permitted to access this quiz. If no keys are entered, then Moodle does not check Browser Exam Keys. Can only be set if Require the use of Safe Exam Browser is set to "Yes - Upload my own config" or "Yes - Use SEB client config". When using the option "Yes - Upload my own config", you have to re-download the configuration file from the attempt quiz page (using the button "Download Configuration") and use that file to calculate the Browser Exam Key in each SEB version you want to allow for this quiz. These re-calculated Browser Exam Keys you need to copy-paste into the "Allowed browser exam keys" field (each key on a new line). The reason for this is that Moodle changes the Start URL setting value and formatting of the configuration file you initially uploaded to the quiz settings, therefore the Browser Exam Key changes. This doesn't apply when using the option "Yes - Use SEB client config". Remember that using the Config Key, which Moodle automatically calculates, is much easier.

3.9: Attiva modifica

- Immaneabile ritorno

3.9: Copia Corso

- Dal corso
- Da Gestione corsi e categorie

The screenshot displays a course management interface. At the top, there is a blue button labeled "Attiva modifica" and a gear icon. A dropdown menu is open, listing several options: "Impostazioni", "Criteri di completamento", "Disiscrivimi da Prova LTI Consumer", "Filtri", "Impostazione registro valutatore", "Backup", "Ripristino", "Importa", "Copia corso", "Reset", "Course Advanced Configuration", and "Altro...". A blue arrow points to the "Copia corso" option.

Below the dropdown menu, there is a section titled "Miscellaneous" with a blue button labeled "Crea corso". Underneath, there are dropdown menus for "Ordina corsi" and "Per pagina: 20", and a pagination control showing "1 2 »".

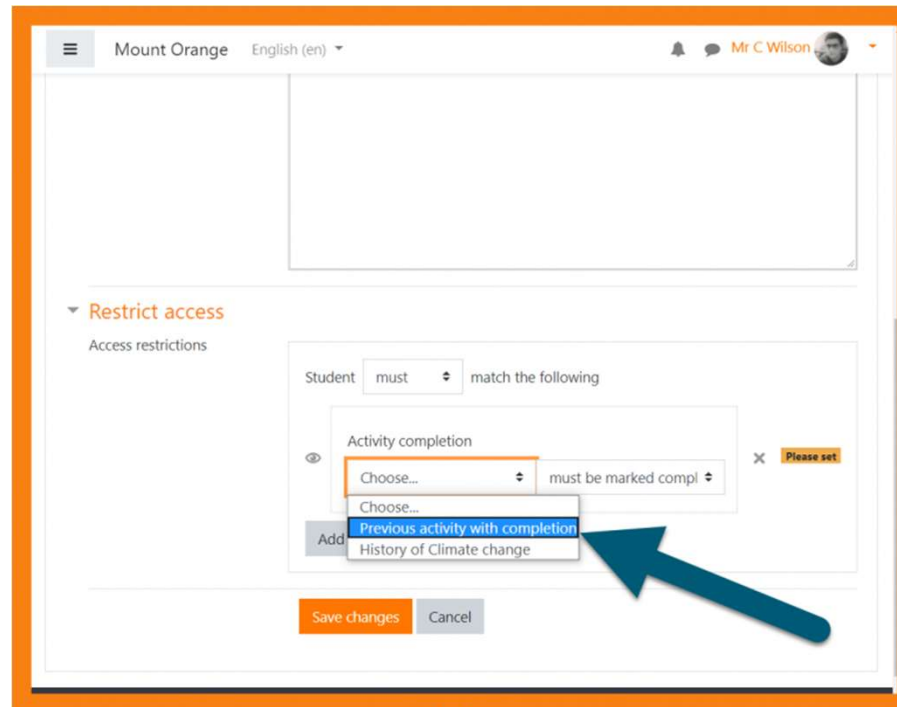

A table lists several courses with their respective icons and actions:

Course Name	Settings	Copy	Delete	Visibility	Order
<input type="checkbox"/> test course	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> Prova plugin Agenas	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> Test H5P	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> Prova corso normalizzatore	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> test normalizzatore	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> Prova LTI Consumer	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️
<input type="checkbox"/> Saper lavorare in autonomia	⚙️	📄	🗑️	👁️	⬆️ ⬇️ ⬆️

A blue arrow points to the "Copia" icon in the second row of the table.

3.9: Certificati

- Componenti opzionali
- Da Workplace
- Certificate manager
- Modulo attività

The screenshot displays the Moodle Certificate Manager interface. At the top right, there is a '+ New page' button. Below it, a dropdown menu shows 'Page 1'. The main area is divided into two sections: a list of elements on the left and a preview of a certificate on the right.

Elements List:

- Background image
- This certificate is awarded to
- User name
- For completing the course
- Course full name
- Awarded on
- Issued date
- QR code
- Mary Jones
- Signature
- School Director
- Logo

Certificate Preview:

The certificate preview shows a teal background with a white pattern. The text on the certificate includes:

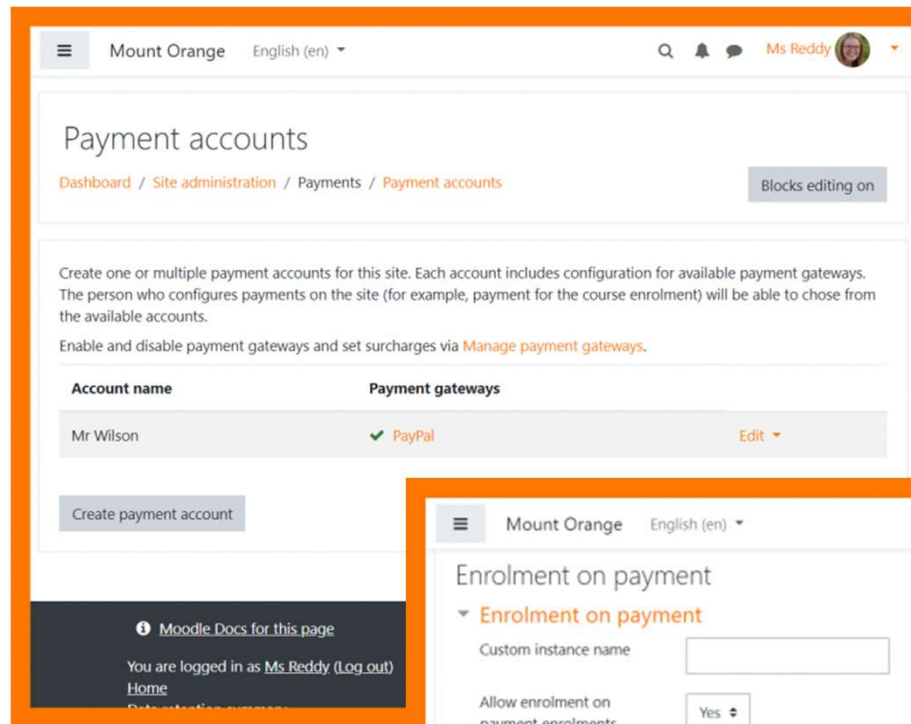

- This certificate is awarded to
- MediaTouch 2000 srl Support Team**
- For completing the course
- Titolo del corso**
- Awarded on 25 November 2020

At the bottom of the certificate preview, there is a QR code, a signature of Mary Jones (School Director), and the Moodle logo.

At the bottom of the elements list, there is a blue button labeled 'Add element'.

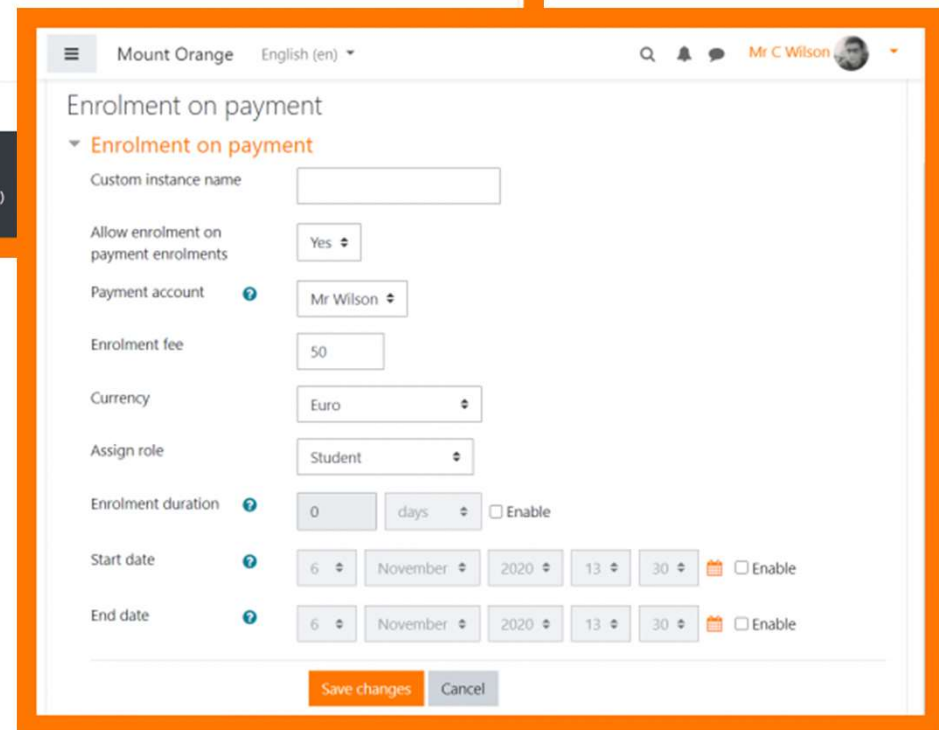

3.10: Corsi a pagamento

- Account di pagamento
- Metodo di iscrizione

The screenshot shows the 'Payment accounts' page in Moodle. The breadcrumb trail is 'Dashboard / Site administration / Payments / Payment accounts'. A 'Blocks editing on' button is visible in the top right. The main content area contains a paragraph explaining that payment accounts are used for configuring payment gateways and that users can manage gateways via 'Manage payment gateways'. Below this is a table with two columns: 'Account name' and 'Payment gateways'. One account is listed: 'Mr Wilson' with a 'PayPal' gateway. An 'Edit' button is next to it. A 'Create payment account' button is at the bottom left. A footer bar contains a 'Moodle Docs for this page' link, a login status 'You are logged in as Ms Reddy (Log out)', and a 'Home' link.

Account name	Payment gateways
Mr Wilson	✓ PayPal Edit

The screenshot shows the 'Enrolment on payment' configuration page. The breadcrumb trail is 'Dashboard / Site administration / Payments / Enrolment on payment'. The page title is 'Enrolment on payment'. The 'Enrolment on payment' section is expanded, showing various configuration options:

- Custom instance name:
- Allow enrolment on payment enrolments: Yes
- Payment account: Mr Wilson
- Enrolment fee: 50
- Currency: Euro
- Assign role: Student
- Enrolment duration: 0 days Enable
- Start date: 6 November 2020 13:30 Enable
- End date: 6 November 2020 13:30 Enable

At the bottom, there are 'Save changes' and 'Cancel' buttons.

3.10: Scaricamento contenuti del corso

- File, Cartella, Pagina e Etichetta
- Configurabile a livello di corso
- Configurabile a livello di sito

The image displays three screenshots from the Moodle Mount Orange interface, illustrating the process of configuring course content download settings.

Top Left Screenshot: Shows a course dashboard for 'Vegan baking'. A modal dialog titled 'Download course content' is open, displaying the message: 'You are about to download a zip file of course content (excluding items which cannot be downloaded and any files larger than 50MB)'. The dialog includes 'Download' and 'Cancel' buttons.

Top Right Screenshot: Shows the 'Edit course settings' page for the 'Vegan baking' course. The 'General' section is expanded, and the 'Enable download course content' setting is highlighted in yellow. A dropdown menu is open, showing options: 'Yes', 'No', 'Yes', and 'Site default (Yes)'. The 'Course start date' is set to 6 November 2020, 13:25.

Bottom Screenshot: Shows the 'Download course content' configuration page for the site. The 'Download course content feature available' checkbox is checked, with a note that the default is 'No'. The 'Maximum size per file' is set to 50 MB, with a note that the default is 50MB. A 'Save changes' button is visible at the bottom.

3:10 Quiz Timer

- “Scrolling timer”

The screenshot shows a quiz interface for 'Mount Orange' in English. The user is Barbara Gardner. A timer in the top right corner shows 'Time left 0:17:03', which is highlighted with a red box and an orange arrow pointing to it. The quiz consists of three questions:

- Question 2:** Not yet answered. Marked out of 1.00. A true/false question: "Vegans do not drink alcohol because it is not part of their allowed substances." Options: True, False.
- Question 3:** Not yet answered. Marked out of 1.00. A matching question: "Match the product to its description." Items: Soaked soya beans mashed with water, filtered, curdled.; Semi-ripe grain, harvested, roasted and dried.; Fermented soya beans. Choices: Choose... (dropdown).
- Question 4:** Not yet answered. Marked out of 1.00. A text question: "As instructed by your teacher, describe your vegan pie dish here and upload an image (jpg or .png please)". Includes a rich text editor toolbar with icons for undo, bold, italic, list, link, unlink, image, and emoji.

3.10: Stili H5P

- Adattamento site H5P

The screenshot shows a Moodle course page for 'Vegan baking' on the Mount Orange platform. The page is in English (en) and is accessed by Barbara Gardner. The breadcrumb trail is: Dashboard / My courses / Vegan / Why Vegan? / Great Vegan BakeOff. The left sidebar contains a navigation menu with the following items: Vegan, Participants, Badges, Competencies, Grades, Welcome!, Why Vegan? (highlighted), Sweet dishes, Savoury dishes, Dashboard, Site home, Calendar, Private files, My courses, and DL 101. The main content area displays the title 'Vegan baking' and the video player for 'Great Vegan BakeOff'. The video player shows a pizza being cooked on a stove, with a text overlay that reads: 'Watch closely - there are questions at the end!'. The video progress bar indicates 0:04 / 0:16. Below the video player, there are navigation links: 'DiETING as a Vegan', a 'Jump to...' dropdown menu, and 'Delicious desserts'.
